NOCTUAM
Specialized Security Solutions

COMPANY PROFILE
Noctuam is a security company, based in South Africa, providing specialized security solutions to customers in various industries and countries by using the latest technology, equipment, training and continuously improving operational strategies.

The word “noctuam” is the accusative singular of the Latin word noctua, which means “night bird” or “owl” with the ability to “see in darkness”. Our ability to operate in darkness, to see where no one else can see, is core to our business approach and success.

Although Noctuam only registered in South Africa in 2014, the shareholder, board members, and employees come from a history of company ownership and operational involvement in several countries outside South Africa. Most significantly, we transgressed from International Specialized Services (ISS), a Kabul based security provider in Afghanistan, to Noctuam today. We are successful in employing our expertise all over the globe and completed projects in countries including: South Africa, Namibia, Angola, Mozambique, Sierra Leone, Nigeria, Tanzania, Somalia, Libya, DRC, Kosovo, Iraq, Afghanistan, Guatemala and Malaysia.
International Security Services was founded in Afghanistan in 2006 by the founder and owner of Noctuam. The business in Afghanistan provided a full complement of protection and special security services to the US DoD, USAID, corporate clients, and individuals. Our services included armed escort security, PSD support, static security, threat warning assessments and remote site protection services.

A joint venture was formed with Safenet during 2010 to carry on with business in Afghanistan and we relocated to South Africa where we established a sound base of expertise to built on, moving our focus to Counter Poaching, Remote site protection and agricultural solutions and assessments in high risk areas.
Noctuam and ISS (Afghanistan) has an impressive track record of service delivery and is proud to list some of our satisfied clients below:
HISTORY – SUMMARY OF PAST PROJECTS

We were involved, managed and supported the following projects:

PROFESSOR OF DIRECTORS

Wilco Meyer: -
Possess over 30 years experience in the Military, para-military and security industry. His career started in the South African Defense force as a land & sea borne Special Forces operator. Over the years he was involved in various project including Landmine clearance, VIP Protection, Training of foreign armies, remote site protection, mine security, convoy security, Training of PSD teams, offensive and defensive drivers, reaction forces, anti-piracy, counter poaching, ship and port risk mitigation, risk assessments, Surveillance and Intelligence Operations etc. As founder member and president of ISS, Afghanistan, he managed and lead an expatriate and local staff compliment of more than 1500 people. On returning to South Africa, he founded Noctum. As CEO and sole shareholder, he is still involved in the field where he leads operating teams.

Leon van Vuuren: -
Experienced in business development, he successfully established new businesses and projects. As an agricultural and business graduate, he is involved in feasibility studies and development projects. He sets up new sites, solves logistical, challenges, implements protocols and procedures, keeps control of finances, budgets and general management. Trained in the infantry, he served in the South African Defense force where he was involved with training and deployment of foreign Forces. Involved in the security industry since 2011, he served as a team leader, project manager and contract manager on projects in Tanzania, Somalia and South Africa. As General Manager, he believes to be involved at all sites to maintain a good understanding of operational challenges.
MISSION STATEMENT

To be a leader in risk mitigation and tactical security, providing clients the satisfaction and confidence of safeguarding their personnel, customers and assets by continuously improving our services and staff through regular quality assessments, training, leadership and use of the latest technology.
Security Solutions
Protecting people, facilities and assets remains a challenge for organizations in high-threat areas. Robust and intelligent security is the key to survival and demands the expertise of trusted providers.

Our employees and contractors are experienced specialists with years of experience serving in military, on specialized high risk projects, doing special operations, law enforcement and counterterrorism units.

We supplement our security services with a comprehensive on-site analysis of your facilities' current physical security conditions, security staff, procedures, communications capabilities, emergency action plans, command centres and training programs. We then recommend and implement cost effective solutions to mitigate and eliminate risks and loss. We offer services according to your specific requirements including the following:
